wolf
LUBRICANTS

THE VITAL LUBRICANT

Wolf lubricants quite literally bring engines to life, delivering the highest levels of efficiency and performance, with products that set new standards of reliability and protection.

With the exponential speed at which new and cleaner engine technologies are being developed, Wolf continues to be at the forefront of these innovations with cutting-edge lubricant products and additive technologies that meet the highest standards and official OEM approvals.

The precision we put into the development of our products is vital in improving the life force of engines.

WOLF OIL CORPORATION
THE COMPANY
BEHIND THE
BRAND

We pride ourselves on being a 'pure player' in our industry. We are 100% dedicated to lubricants. We've been creating next-generation products since 1955 and have amassed more than 60 years of knowledge and expertise. As one of Europe's leading independent lubricants companies, we are specialist, focusing on meeting the diverse needs of our customers with high-quality, technology-enhanced lubricants.

We add value with a full-service approach that includes technical advice, real-time supply and on-going training and support.

We are big enough to deliver, yet small enough to care.

OFFICIAL LUBRICANT PARTNER OF THE
FIA WORLD RALLY CHAMPIONSHIP

PRECISION DRIVES PERFECTION

**WOLF, THE OFFICIAL LUBRICANT PARTNER OF THE FIA
WORLD RALLY CHAMPIONSHIP**

**PARTNERSHIP COMMITTED TO THE VERY BEST IN
VEHICLE PERFORMANCE AND PRECISION**

There is nothing in motorsport to match the diversity, spectacle and sheer excitement of the FIA World Rally Championship (WRC), demonstrating motorsport passion and technological innovation.

Since 2019, Wolf is the Official Lubricant Partner of the FIA World Rally Championship. This partnership builds on Wolf's continued drive for exceptional engineering and precision in everything we do.

What may seem trivial to others is important to us. Preparation, knowledge, attention to detail and a strong team can all make a significant difference. In your business, just as in motorsport, you need to be well-prepared and perfectly in tune with what needs to happen next. It's about leaving nothing to chance. It's about anticipation and taking anything risky out of the equation altogether.

**THE ULTIMATE PLATFORM TO DEVELOP
THE LUBRICANTS OF TOMORROW**

**WE BRING RACING TECHNOLOGY FROM
RACE TO ROAD**

What does this mean for you? Developing lubricants for such prestigious partnerships allows us to engineer sophisticated formulations that will later be introduced in our regular product ranges. Especially with the downsizing of today's engines, it will be key to your success to have products at your disposal that are tested in the most demanding conditions and developed with the latest technologies.

KEEPS ENGINES YOUNG

WOLF MULTIFACTOR OIL SERUM – OUR EXCLUSIVE PRODUCT TECHNOLOGY

Modern high performance engines require a new generation of lubricants capable of maintaining their qualities. To this effect, we have developed our own proprietary technology that contains as many as 20 active ingredients.

Wolf's MultiFactor Oil Serum increases the lifespan of lubricants and keeps engines young. This state-of-the-art technology can be compared to a cosmetic product. It's the sophisticated balance and combined interactions of these active ingredients that have a vitalising effect on the oil over time.

This ensures Wolf lubricants maintain their properties for longer, so that engines can deliver optimum performance between increasingly long service intervals.

**IN A RAPIDLY CHANGING
MARKET, PRECISION MAKES ALL
THE DIFFERENCE. IT'S ABOUT
MAKING EVERY SINGLE DETAIL
COUNT AND LEAVING NOTHING
FOR GRANTED.**

KEEPS **ENGINES** CLEAN

IMPROVES **ENGINE** PROTECTION

EXTENDS **DRAIN INTERVALS**

REDUCES **FUEL** CONSUMPTION

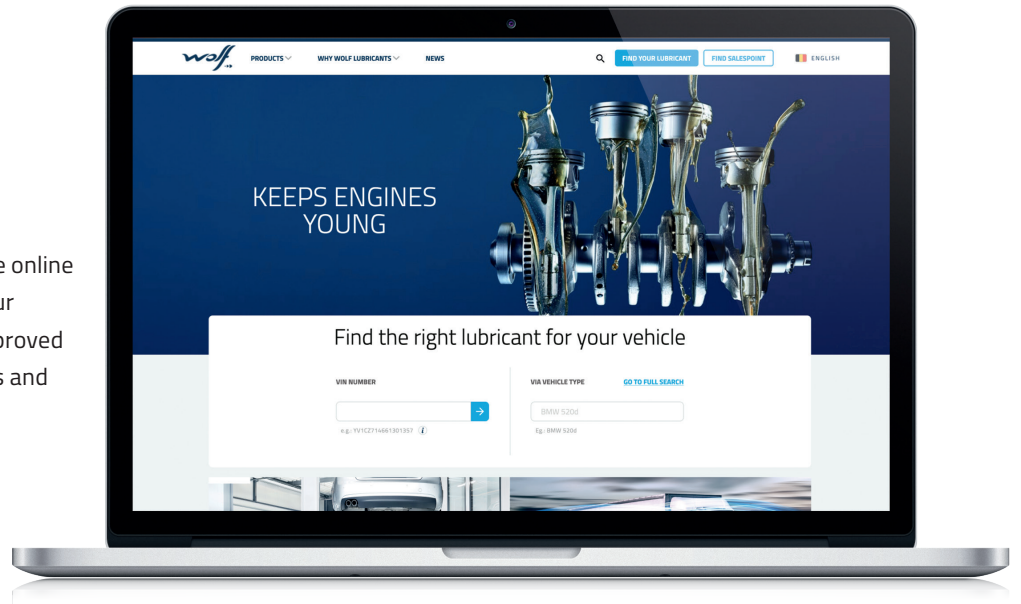

LOWERS **CO²** EMISSIONS

OUR DIGITAL PLATFORMS

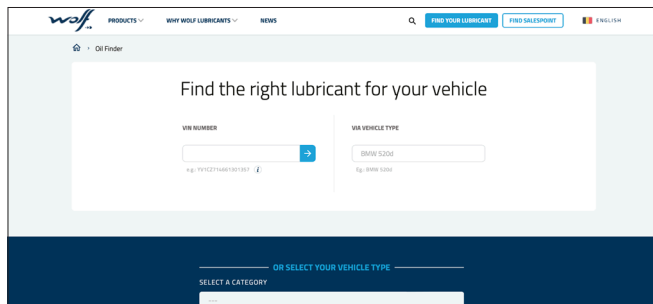

OUR WEBSITE

Today's lubricants market is very complex. Knowledge is key and that's why we provide online guidance that brings you peace-of-mind. Our website offers the perfect mix between improved product information, recommendation tools and clear technico-commercial content.

www.wolflubes.com

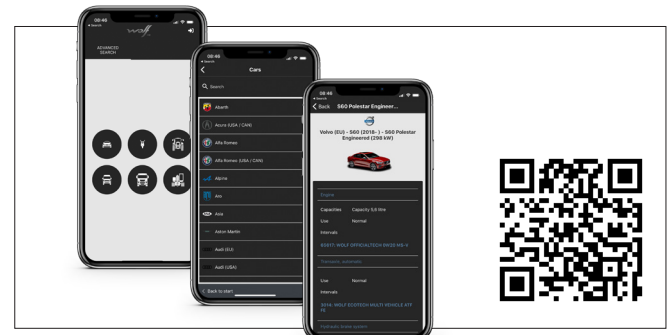

PRODUCT RECOMMENDATION TOOL

By using the Product Recommendation Tool you can find the most suitable oil for each application. The recommendation tool is based on the vehicle, model, type, brand or VIN number and follows the OEM specifications.

WOLFLUBES LUBRICANT FINDER

Elevate your maintenance by always having the right product at your fingertips. **Download the WolfLubes Lubricant Finder now!**

HOW TO READ OUR LABELS

THE PRODUCT NAME

The complete product name starts with a sub-category product classification followed by the viscosity grade and API/ACEA classification.

COMPOSITION OF THE PRODUCT

The specific formulations of the products are classified as mineral, semi-synthetic or full synthetic motor oil.

THE EMISSION SYSTEM PROTECTION (ESP) LOGO

The Emission System Protection logo is applied on products that maintain and protect the after-treatment devices of the vehicle.

PACKAGING CONTENT

Indicates the volume of content of the specific package size.

USAGE, HEALTH AND ENVIRONMENTAL INFORMATION

Safety guidelines for the usage of oils and fluids, as well as information about environmental and waste disposal legislation. We provide this information in 27 languages.

EMERGENCY PHONE NUMBER

This is a phone number for emergencies.

ARTICLE EAN CODE

The EAN code is the identification code and barcode of the article.

ENVIRONMENTAL PICTOGRAMS

These pictograms highlight country-specific environmental legislation.

THE LOGO

The WOLF logo represents the fluidity and technical innovation of our extensive product range.

THE OEM SPECIFICATION LEVEL

For each product range, the OEM specification level and approvals are listed here.

THE FEATURES

These are the key product benefits when using WOLF motor oil.

THE PRODUCT CATEGORY

The image shown here represents the application of the product. If no image is shown, the product covers various categories.

THE API & ACEA CLASSIFICATION AND SEGMENTATION

Highlights the ACEA and API classification of the product with a color code according to each product sub-category.

THE PRODUCT NAME

The complete product name consists of the product classification in a sub-category, followed by the viscosity grade and API/ACEA classification.

PACKAGING CONTENT

Indicates the volume of content of the specific package size.

PART NUMBER

The Part Number (PN) is the identification code of a WOLF product in a specific packaging unit. This PN is the reference through all the documentations, tariffs and order forms.

SPECIFICATION LEVEL

The specification level indicates the performance of the lubricant. It is composed of API and ACEA classifications, and complemented with OEM specifications, if applicable. We highlight clearly whether the product carries the official OEM approval.

DESCRIPTION

This innovative full synthetic engine oil is your number one choice to service the most fuel-efficient engines by providing a 2% increase in fuel economy compared to previous CJ-4 formulations. It offers complete engine protection thanks to its wear reducing additives, enabling a unique balance between protection and fuel economy. Furthermore, its improved oxidation control and shear stability guarantee optimised fuel economy during the complete oil change interval.

DESCRIPTION

The state of the art wear-reducing additives contained within this synthetic engine oil are engineered to combine stable oil performance with excellent engine protection, resulting in extended drain intervals without ever compromising on engine protection. The ultra-thin protective oil film retains its excellent protective properties over a wide range of temperatures. Furthermore, the engine oil has high shear resistance, cutting down on maintenance costs by further extending drain intervals.

GUARDTECH SAE 50 CF-4/SG

PRODUCT CODE 21205
MINERAL

SPECIFICATIONS

API - CF-4/SG
MB - 227.0

DESCRIPTION

Monograde oil, mainly used in diesel engines with or without turbo between 1989 and 1994. It has high resistance to oxydation, good detergent and dispersant properties, and high lubricity.

FULL SYNTHETIC

SPECIFICATIONS
AFNOR - NF E 48-603 HV
DIN - 51524 T3 HVLP
ISO - 11158, HV
ISO - 6743-4, HV
DENISON - HF-2
EATON VICKERS - I-286-S

DESCRIPTION
This full synthetic hydraulic oil is particularly suitable for use in very low temperature regions. It has excellent detergent and dispersant properties combined with low foaming tendencies. The extremely high viscosity index allows significant temperature increases while keeping the viscosity extremely stable.

SPECIFICATIONS

DIN - 51502
DIN - KP2K-20
ISO - 12924
ISO - L-XB(F)CHB2

DESCRIPTION

This is a lithium calcium thickened grease. It contains antioxidants, corrosion inhibitors and EP/AW additives.

0,4KG	8331602	18KG	8331701	180KG	1052885
0,4KG	1053382	50KG	8331800		

ANH CA GREASE EP 2 GREEN

PRODUCT CODE 9284

SPECIFICATIONS

DIN - 51502
DIN - KP2K-30
ISO - 12924
ISO - L-XC(F)CIB2

DESCRIPTION

This lithium-free multipurpose grease is an anhydrous calcium (ANH Ca) thickened lubricating grease based on a mineral oil and polymer.

0,4KG	1053378	50KG	1053313
18KG	1053312	180KG	1053314

LITHIUM CALCIUM EP2 GREEN

PRODUCT CODE 9184
MINERAL

SPECIFICATIONS

DIN - 51502
DIN - KP2K-30
ISO - 12924
ISO - L-XC(F)CIB2

DESCRIPTION

This lithium-calcium grease is characterized by improved water resistance and rust protection. Also suitable for the lubrication of heavily loaded bearings running at medium speed.

0,4KG	8337529	50KG	8338021
18KG	8337925	180KG	8338120

MOLY ANH CA GREASE EP 2

PRODUCT CODE 9220

SPECIFICATIONS

DIN - 51502
DIN - KPF2K-30
ISO - 12924
ISO - L-XC(F)CIB2

DESCRIPTION

This lithium-free multipurpose grease is an anhydrous calcium (ANH Ca) thickened lubricating grease based on a mineral oil.

0,4KG	1053372	50KG	1053270
18KG	1053269	180KG	1053271

LITHIUM GREASE EPA

PRODUCT CODE 9140
MINERAL

SPECIFICATIONS

DIN - 51350:4
DIN - KPF2K-30
ISO - 6743
ISO - L-XCCEB2

DESCRIPTION

This a lithium thickened grease with antioxidants, corrosion inhibitors and EP/AW additives. It is a multipurpose "moly" grease which can be used in various applications.

0,4KG	8336706	18KG	8333606	50KG	8333705
-------	---------	------	---------	------	---------

MULTI MOLY GREASE 2

PRODUCT CODE 9120
MINERAL

SPECIFICATIONS

DIN - 51502
DIN - KPF2K-30
ISO - 6743
ISO - L-XCCIB2

DESCRIPTION

This is a multipurpose grease, containing molybdenum disulphide (MoS₂) that contributes to its extreme pressure and anti-wear characteristics, even at the heaviest loads and the most violent shocks.

0,4KG	8321092	50KG	8321290
18KG	8321191	180KG	8321399

MULTI MOLY EP 0 ARCTIC

PRODUCT CODE 9185
MINERAL

SPECIFICATIONS

DIN - 51502
DIN - OGFP0G-50
ISO - 12924
ISO - L-XE(F)BIB0

DESCRIPTION

This is a calcium complex and lithium complex thickened lubricating grease based on mineral oil. It contains antioxidants, corrosion inhibitors and molybdenum disulphide.

18KG	1042137	50KG	1053143	180KG	1042138
------	---------	------	---------	-------	---------

HIGH TEMPERATURE GREASE 2

PRODUCT CODE 9150
MINERAL

SPECIFICATIONS

DIN - 51502
DIN - KP2N-30
ISO - 6743
ISO - L-XCDAB2

DESCRIPTION

This grease is based on high viscosity mineral base oils with high flash point. Clay is used as inorganic thickener that makes the product suitable for a wide range of temperatures.
